What else is happening behind the scenes?

- The account ‘Display Name’ is being changed to show:
  “Student Name (Student ID)”
  ie: “Paul White (000958745)”

So when you send an email to a student it will display both the Student Name and ID as the addressee...

- The old “Student ID” email will be associated with the account record

So you can still send email to the student using ‘student_id@tafesa.edu.au’

What do I need to do?

- Actually…not much…!
  - *Students will be sent an email (via their current TAFE SA email address) advising their new email address.*
  - *The advice will contain instructions on how to contact ICT if the new address is inappropriate.*
  - *Any email currently sent to the "Student ID" email address will be automatically redirected to the "Friendly Name" address.*
