

hello! 🐾
my name is

**cuddlepup
for adoption**

BILLY

age: 4 years

sex: Male

desexed: YES

**a little
about me**

- Billy is a gorgeous, playful, excitable, confident boy who is also very cuddly, affectionate, and people-loving.
- He adores people and enjoys greeting everyone he sees.
- He loves interactive play, though can get overly excited and may jump or pull. However, he calms quickly once getting pats and will happily lean in for cuddles.
- Loves toys and will collect them on his bed and enjoys doing short zoomies.
- Quiet and settled when no other dogs (besides greyhounds) are around.
- He is still learning polite other breed dog-to-dog greetings; may bark, whine, or pull towards other dogs. As he just gets too excited. With ongoing socialisation and guidance, he'll continue improving his manners.
- Generally a loose-lead walker but forgets manners when excited by people or dogs.
- Best suited as an only dog or with a tolerant medium-large female dog
- No cats or pocket pets.
- Suitable for apartments/small yards
- Best with children 8+ due to his enthusiastic nature.
