

hello!   
my name is

**cuddlepot  
for adoption**

**BREE**

**age:** 4 years

**sex:** Female

**desexed:** YES

**a little  
about me**

- Bree is a quiet, calm, and gentle girl who enjoys living in a peaceful and relaxed home environment.
- She is affectionate on her own terms and loves quiet cuddles.
- Bree adores her stuffed toys and is very playful, often carrying them around and collecting them neatly on her bed.
- She does not like to share her toys and may guard them, so she is best suited as the only dog in a home with children aged 10 and over.
- Bree is great with other dogs on lead, but off lead she can become a bit rough or overly excited. She would benefit from continued socialisation training to learn to be more polite.
- Bree is a lovely loose-lead walker, that enjoys exploring. She enjoys her walks and sometimes doesn't want to head home yet when you do.
- She is untested with pocket pets and cats.
- Bree loves to do zoomies, so a backyard is helpful but not essential.
- She needs assistance getting into the car, but once inside she travels well.
