

hello! my name is

**cuddlepot
for adoption**

DESI

age: 4 years

sex: Female

desexed: YES

a little about me

- Desi is a happy, cuddly, excitable, and friendly girl who loves being around people.
- She adores human attention and expects pats and cuddles from everyone she meets.
- She loves water and enjoys any opportunity to splash or play in it.
- Desi is very playful and has a great time entertaining herself with her toys.
- She is other-breed friendly but is still learning polite greeting manners.
- Once she knows another dog, she usually becomes disinterested unless the dog becomes highly energetic again.
- She tolerates other dogs in her space but prefers to go off and do her own thing.
- Despite being lazy at heart, she walks well on a loose lead and enjoys exploring new places.
- She travels well in the car and genuinely enjoys going on outings.
- She is best suited to an only-dog home but could live with a tolerant medium to large independent dog.
- Children 5+ years old
- Untested with pocket pets and cats.
- Apartment or small yard suitable.
