

hello! 🐾
my name is

**cuddlepup
for adoption**

IZZY

age: 3 years

sex: Female

desexed: YES

**a little
about me**

- Izzy is a cuddly, affectionate, quiet, and gentle girl. She is playful, enjoys playing with toys and going for short zoomies or walks.
- She adores people and wants to say hello to everyone but is respectful and patient meeting people.
- Izzy is active when out and about but is lazy once back in kennels. Ideally, she wants a quiet home where not a lot of exercise is required, or the exercise is more controlled. However, she loves going on excursions to see people and explore.
- She had a significant broken leg racing that ended her career. As a result, she has a plate in her front left leg that causes her to walk with a permanent limp. She still does everything a dog is meant too but has some restrictions. Contact to discuss more.
- Is still learning other breeds of dogs and giving polite greetings. She will still need training in this.
- Is best suited as an only dog home but could also live with an independent and tolerant medium- large dog.
- Is apartment or small yard suitable.
- Children 10+ solely because of her racing injury.
- No pocket pets and cats.
