

hello! 
my name is

**cuddlepot
for adoption**

JAZZY

age: 4 years

sex: Female

desexed: YES

**a little
about me**

- Jazzy is a friendly, cuddly, lazy and affectionate girl who loves being close to people.
- She adores meeting new humans and will happily lean on you for cuddles.
- Jazzy gets excitable at first but settles down quickly once getting attention.
- She enjoys playing with toys but would always rather have pats and cuddles.
- She gets along well with dogs of all sizes, though she can be a little rude in her initial greetings and in some play. Jazzy is usually more interested in the other dog's owner than the dog itself.
- She could live as on an only dog or with another tolerant dog of any size.
- On walks, Jazzy pulls at the start but becomes a lovely loose-lead walker once she settles. She will pull more in a group situation, unless she is out in front.
- She is suitable for apartment living or a home with a small yard.
- Jazzy can live with confident children aged 5+ years.
- She is untested with pocket pets but is good around horses.
- She is cat tolerant, but still needs more training.
