

hello! 
my name is

**cuddlepot
for adoption**

SHERMAN

age: 5 years

sex: Male

desexed: YES

**a little
about me**

- He is a cuddly, affectionate, super playful, and energetic boy that enjoys some weird sleeping positions. He loves people and saying hello to everyone he meets but doesn't always have the patience to stand around and wait while people are talking.
- He can be strong on lead but loves going for walks.
- Enjoys zooming and is super playful with his toys, after which he does enjoy a good relaxing snooze.
- He is good with medium/large dogs and could happily live with them. He is good with little dogs but is still learning how to play with someone that is smaller than him.
- Not recommended for apartments unless an active lifestyle.
- Good with children 5+ and would love an active family to play with.
- Could be an only dog but does enjoy playing with his doggy friends or could live easily with a medium/large dog.
- No pocket pets and he has never been tested with cats.

**also good
to know**
