

hello! 
my name is

**cuddlepot
for adoption**

SHIRLEY

age: 4 years

sex: Female

desexed: YES

**a little
about me**

- Shirley is a happy, friendly, sweet, cuddly and affectionate small girl. She can be excitable at times, but settles quickly and is a clam, quiet, lazy and respectful girl.
- Adores people and wants to be around them and is an expert at leaning on them. She expects pats and cuddles from everyone she meets.
- She is a serious explorer off lead before coming to hang with people, but does like playing with toys every now and again.
- She is a loose lead walker but can cross in front of you at times, loves food and going for walks. She isn't big on zooming and travels well in cars.
- Shirley is still learning other breeds and is not muzzle exempt. She is fine on lead walking in a group with other breeds but does not like being approached and is still very rude in her greetings. However, is perfectly fine with other greyhounds on and off lead.
- Recommend as an only dog household or with another greyhound for company
- She is suitable for an apartment or small yard
- Children 5+ years old
- No pocket pets or cats
