hello! my name is

cuddlepot for adoption

TAYLA

age: 4 yrs **sex:** FEMALE **desexed:** YES

a little about me

- Tayla is a bright, bubbly, affectionate, cuddly, cheeky, playful and gentle girl. She adores people and getting attention.
- She loves a good zoom, playing, being active and going for walks. But once that's all done, she will curl up on her bed for a nap until you tell her to get going again.
- She is food motivated and a beautiful loose lead walker.
- Would prefer a carpeted home or a home where rugs/mats can be put down. This is because smooth floors are scary and she does lose her footing easily.
- She does stand a little odd in her hind legs as she tore both Achilles while racing. She is all healed and it doesn't slow her down.
- Is good with other dogs. Could live with any size doggy friend but would prefer a medium to large as she does like to play. She can be a bit tense, staring and tall when first meeting them or another dog is in her space but settles quickly.
- Has spent time in a home and was easy and settled in quickly. However, she is a bit of a collector of household items (e.g. pillows, shoes etc.) but doesn't destroy them.
- Loves water and will lay down in a paddle pool to cool off
- Is apartment and small backyard suitable.
- Children 5+
- Is untested with pocket pets and cats.

also good to know
