

hello! 🐾
my name is

**cuddlepot
for adoption**

TUBS

age: 4.5 yrs

sex: MALE

desexed: YES

**a little
about me**

- Tubs is a goofy, loving, cuddly, and energetic boy who brings plenty of fun and laughs wherever he goes.
- He adores people and is always keen for pats, attention, and being part of the action.
- He loves toys, especially stuffed toys, and is very playful with them and people.
- He can be jumpy and overly enthusiastic sometimes playing a little rough or forgetting his manners when excited.
- Would thrive with an active family and a backyard where he can run, play, and burn off energy. He would love a young friend to play with or another canine companion.
- Generally good with other dogs and little dogs on lead but can become overly excited and come across as rude during interactions. Off lead, Tubs lacks spatial awareness and may accidentally run into people or other dogs, which can overwhelm some canine friends.
- He usually walks nicely on a loose lead but may pull when excited by people, dogs, or interesting things around him.
- No cats or pocket pets.
- Needs a backyard for those energetic zoomies.
- Suit as an only dog or with a medium/large canine friend.
- Best suited to a home with children aged 8+ as he may knock over younger children in his excitement.
