

How to Guide

Connect to the TAFE SA Wireless Network – Mac OSX Laptop

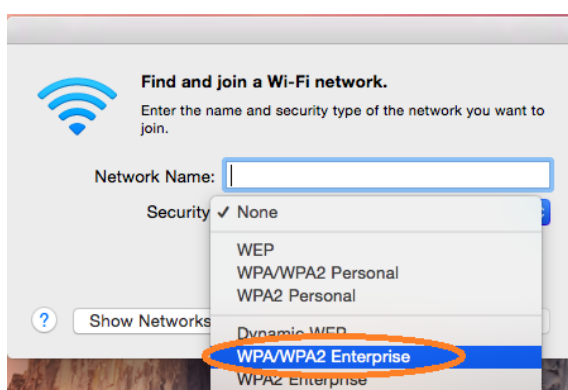

ICT Services

Connecting a Mac OSX Laptop (10.10.5)

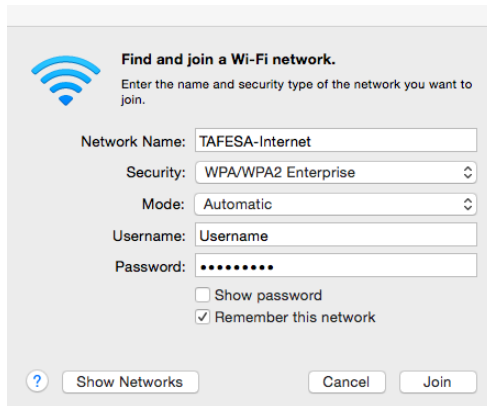

1. Ensure you are in range of the TAFESA-Internet wireless network (e.g. in the campus library or common student area), and logged into your laptop.
2. From the taskbar in the top right hand corner of your screen click on the network icon as show in the picture below. Check Wi-Fi is ON and select 'Join Other Network'.

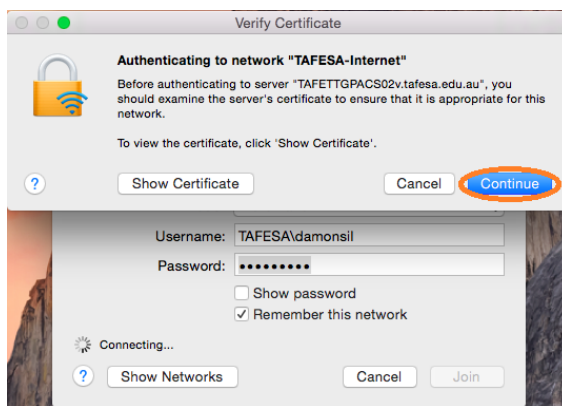

3. In 'Find and join a Wi-Fi network', change Security to 'WPA/WPA2 Enterprise'.

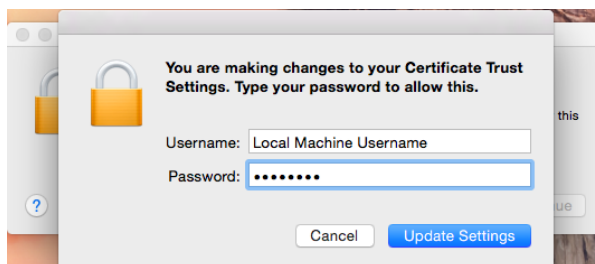

4. In the Network Name, enter 'TAFESA-Internet'. Then, enter your TAFESA username and password in the appropriate fields, and then click 'Join'.

5. Click 'Continue' when prompted by the 'Verify Certificate' warning as below.

6. On the popup window about Certificate Trust, enter your Local machine account details.

7. Your device should now be connected to the TAFESA-Internet wireless network.
